

TEST REPORT

REPORT No.: **DTIBW20220259-1**

Date: 2022-03-03

Page 1 of 9

Applicant Company Name: **Nebra Ltd**

Applicant Company Address: **Unit 4 Bells Yew Green Business Court, Bells Yew Green, Tunbridge Wells, East Sussex, TN3 9BJ**

The following sample(s) was/were submitted and identified on behalf of the client as:

Sample Name : Nebra Indoor LoRa Gateway ROCK Pi 4 Version /
Nebra Indoor Helium Hotspot ROCK Pi 4 Version
Model No. : NEBHNT-HHRK4-868
Sample Receiving Date : February 25, 2022
Testing Period : From February 25, 2022 to March 03, 2022
Results : Please refer to next page(s).

Summary of Test Results:

TEST REQUEST

A WEEE Directive 2012/19/EU

CONCLUSION

Pass

Shenzhen Deesev Testing International Corp

Approved by: Tommy Jiang
lab manager

This document is issued by the Company subject to its General Conditions of service of service printed overleaf, available on request for electronic format documents, subject to terms and conditions for electronic documents is drawn to the limitation of liability indemnification and jurisdiction issues defined therein. any holder of this document is advised that information contained hereon reflects the company's findings at the time of its intervention only and within the limits of client's instructions, if any, the company's sole responsibility is to its client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. this document cannot be reproduced except in full, without prior written approval of the company. any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law unless otherwise stated the results shown in this test report refer only to the sample(s) tested.

1.General Information

Country of Origin	China
Product Name	Nebra Indoor LoRa Gateway ROCK Pi 4 Version / Nebra Indoor Helium Hotspot ROCK Pi 4 Version
Product Model	NEBHNT-HHRK4-868
Product weight	522.73g
Product size	9.6cm*7.2cm*5.2cm
Category under the WEEE directive	Fifth category (Small equipment)

2.result of reuse /recycling/recovery assessment

Reuse/Recycling/Recovery	Reuse/Recycling (%)	Recovery (%)
Reuse/Recycling/Recovery Targets under the 2012/19/EU WEEE Directive	55	75
Result of Assessment	87.40	87.40
WEEE requirement compliance	OK	OK

This document is issued by the Company subject to its General Conditions of service of service printed overleaf, available on request for electronic format documents, subject to terms and conditions for electronic documents is drawn to the limitation of liability indemnification and jurisdiction issues defined therein. any holder of this document is advised that information contained hereon reflects the company's findings at the time of its intervention only and within the limits of client's instructions, if any, the company's sole responsibility is to its client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. this document cannot be reproduced except in full, without prior written approval of the company. any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law unless otherwise stated the results shown in this test report refer only to the sample(s) tested.

3.Appearance of the product

This document is issued by the Company subject to its General Conditions of service of service printed overleaf, available on request for electronic format documents, subject to terms and conditions for electronic documents is drawn to the limitation of liability indemnification and jurisdiction issues defined therein. any holder of this document is advised that information contained hereon reflects the company's findings at the time of its intervention only and within the limits of client's instructions, if any, the company's sole responsibility is to its client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. this document cannot be reproduced except in full, without prior written approval of the company. any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law. unless otherwise stated the results shown in this test report refer only to the sample(s) tested.

4. Disassembly Tree

This document is issued by the Company subject to its General Conditions of service of service printed overleaf, available on request for electronic format documents, subject to terms and conditions for electronic documents is drawn to the limitation of liability indemnification and jurisdiction issues defined therein. any holder of this document is advised that information contained hereon reflects the company's findings at the time of its intervention only and within the limits of client's instructions, if any, the company's sole responsibility is to its client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. this document cannot be reproduced except in full, without prior written approval of the company. any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law unless otherwise stated the results shown in this test report refer only to the sample(s) tested.

5. Disassembly Procedure

The disassembly procedure taken here is in accordance with the treatment requirements under the Annex II of the WEEE Directive. In addition, to consider economic and efficiency factors, manual operation and disassembly tools have been applied to separate the components and materials from this product in order to simulate the scenario at the treatment facility, and to achieve the objective that the separated components and materials can be reused, recycled and recovered.

5.1 Connection technique: For this product, the connection technology including as following:

Snap: 2 Glue: 11 Screw: 15

5.2 Disassembly tool: The disassembly tools used for this product show as following:

Disassembly Tool	Cross screwdriver
	Spanner
	Pliers
	Scissors

5.3 Disassembly time:

20 minutes

This document is issued by the Company subject to its General Conditions of service of service printed overleaf, available on request for electronic format documents, subject to terms and conditions for electronic documents is drawn to the limitation of liability indemnification and jurisdiction issues defined therein. any holder of this document is advised that information contained hereon reflects the company's findings at the time of its intervention only and within the limits of client's instructions, if any, the company's sole responsibility is to its client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. this document cannot be reproduced except in full, without prior written approval of the company. any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law unless otherwise stated the results shown in this test report refer only to the sample(s) tested.

6. Material and Recycling Information

According to the information declared by the applicant company, the material and recycling information for this product is described in the following table. The reuse, recycling and recovery assessment for this product is based upon economic and efficiency considerations, and the waste treatment technologies and equipment that are most frequently available to the market.

Photo No.	Component / Material Composition	Weight (g)	Percent Weight (%)	Reuse/ Recycling (%)	Energy Recovery (%)	Recovery (%)
B1	Metal parts	257.42	49.25	44.18	--	44.18
B2	Nonmetal parts	104.03	19.90	18.38	--	18.38
B3	PCB	121.80	23.30	18.59	--	18.59
B4	Wire	39.48	7.55	6.25	--	6.25
Total		522.73	100	87.40	--	87.40

Note:

Due to their insignificant weight and the difficulty of their separation in a manual operation, solder, paint and printing materials are not included in this assessment. Plastic containing brominated flame retardants is not assessed in the list.

Decision rule: According to DTI-CX-39-2020 《Decision rule for conformity of the test results》

This document is issued by the Company subject to its General Conditions of service of service printed overleaf, available on request for electronic format documents, subject to terms and conditions for electronic documents is drawn to the limitation of liability indemnification and jurisdiction issues defined therein. any holder of this document is advised that information contained hereon reflects the company's findings at the time of its intervention only and within the limits of client's instructions, if any, the company's sole responsibility is to its client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. this document cannot be reproduced except in full, without prior written approval of the company. any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law unless otherwise stated the results shown in this test report refer only to the sample(s) tested.

7. Recycling and Recovery Rate Calculation

Reuse Recycling & Recovery Rate using in the report are calculated as following formulas:

$$\text{Reuse \& Recycling Rate (\%)} = \frac{\text{Reuse \& Recycling Weight}}{\text{Product Total Weight}}$$

$$\text{Recovery Rate (\%)} = \frac{\text{Reuse \& Recycling Weight} + \text{Energy Recovery Weight}}{\text{Product Total Weight}}$$

Total weigh of the product is including the main product and accessories.

8. ANNEX II of WEEE Directive

Selective treatment for materials and components of waste electrical and electronic equipment:

- Polychlorinated biphenyls (PCB) containing capacitors in accordance with Council Directive 96/59/EC of 16 September 1996 on the disposal of polychlorinated biphenyls and polychlorinated terphenyls (PCB/PCT) (1),
- Mercury containing components, such as switches or backlighting lamps,
- Batteries
- Printed circuit boards of mobile phones generally, and of other devices if the surface of the printed circuit board is greater than 10 square centimetres,
- Toner cartridges, liquid and pasty, as well as colour toner,
- Plastic containing brominated flame retardants,
- Asbestos waste and components which contain asbestos,
- Cathode ray tubes,
- Chlorofluorocarbons (CFC), hydrochlorofluorocarbons (HCFC) or hydrofluorocarbons (HFC), hydrocarbons (HC),
Gas discharge lamps,
- Liquid crystal displays (together with their casing where appropriate) of a surface greater than 100 square centimeters and all those back-lighted with gas discharge lamps,
- External electric cables,
- Components containing refractory ceramic fibres as described in Commission Directive 97/69/EC of 5 December 1997 adapting to technical progress Council Directive 67/548/EEC relating to the classification, packaging and labelling of dangerous substances ,
- Components containing radioactive substances with the exception of components that are below the exemption thresholds set in Article 3 of and Annex I to Council Directive 96/29/Euratom of 13 May 1996 laying down basic safety standards for the protection of the health of workers and the general public against the dangers arising from ionising radiation ,
- Electrolyte capacitors containing substances of concern (height > 25 mm, diameter > 25 mm or proportionately similar volume)

This document is issued by the Company subject to its General Conditions of service of service printed overleaf, available on request for electronic format documents, subject to terms and conditions for electronic documents is drawn to the limitation of liability indemnification and jurisdiction issues defined therein. any holder of this document is advised that information contained hereon reflects the company's findings at the time of its intervention only and within the limits of client's instructions, if any, the company's sole responsibility is to its client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. this document cannot be reproduced except in full, without prior written approval of the company. any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law unless otherwise stated the results shown in this test report refer only to the sample(s) tested.

Page 9 of 9

9. Recommendations for WEEE Directive Compliance

- In order to avoid the product not meeting the reuse/recycling/recovery targets regulated under the WEEE Directive and the regulations of EU countries, the applicant company should, when selecting material and components design, consider they can be easy to reuse and recycle. This consideration will lessen the impact of the required international environmental directives and also improve the product's competitiveness.
- It is recommended that the applicant company, when designing new product, especially where components and materials have a large weight ratio, should consider using recyclable materials in order to increase the product's reuse/recycling/recover ratio.
- The product should apply to the RoHS Directive (Directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronics equipment). The hazardous substance specification in the Directive should be controlled in the homogenous material of this product.
- If a product has changed its product design, or materials or components employed, then the product should be reassessed and retested in accordance with the WEEE Directive for reuse/recycling/recovery assessment and RoHS for restricted/banned substances requirements.

*** End of Report ***

This document is issued by the Company subject to its General Conditions of service of service printed overleaf, available on request for electronic format documents, subject to terms and conditions for electronic documents is drawn to the limitation of liability indemnification and jurisdiction issues defined therein. any holder of this document is advised that information contained hereon reflects the company's findings at the time of its intervention only and within the limits of client's instructions, if any, the company's sole responsibility is to its client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. this document cannot be reproduced except in full, without prior written approval of the company. any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law unless otherwise stated the results shown in this test report refer only to the sample(s) tested.
